#### ORIGIN OF TERM LYNCH LAW

Tale of Irish Clan Which Was Perpetuated by Giving Deeds Name of Chief Characters.

So many different versions and explanations of the term lynch law have at various times been given, and occasionally are even yet added to, that it seems fitting to recount the tragic incident which has since given a name to so many calamitous occurrences not only in our land, but on occasion also in that of others.

The very name of "Lynch" gives the direct cue to the land of its origin—Ireland. And when we recall the fact that during the latter part of the seventeenth and the early part of the eighteenth century there was comparatively a large immigration from the North of Ireland and the South of Scotland, coming as settlers to the Carolinas, from which much of this material spread westward into Kentucky and Tennessee, and, realizing the tenacity with which these peoples husband, nourish and perpetuate their folk-lore and traditions, it needs only to relate the incident which Thackeray in his "Irish Sketch Book" graphically recounts, to show how natural it was to apply the memories and such a term to the individual exercise of justice and punishment.

Thackeray, in the book referred to and in Chapter 16, which treats of Galway, thus speaks of an occurrence within its precincts which in 1842—and probably does to this day—bore the gruesome "memento" so grimly described in the words following:

"Then there is Lombard street, otherwise called Deadman's lane, with a raw-head and cross-boones and a memento mori over the door where the dreadful tragedy of the Lynches was acted in 1493. If Galway is the Rome of Connaught, James Lynch Fitzstephen, the mayor, may be considered as the Lucius Junius Brutus thereof. Lynch had a son, who went to Spain as master of one of his father's ships, and, being of a wild, extravagant turn, there contracted debts, drew bills, and alarmed his father's correspondent, who sent a clerk and nephew of his own back in young Lynch's ship to Galway to settle accounts. On the fifteenth day young Lynch threw the Spaniard overboard. Coming back to his own country he reformed his life a little, and was on the point of marrying one of the Blakes, Burkes, or Bodkins, or others, when a seaman who had sailed with him, being on the point of death, confessed the murder in which he had been a participator.

"Hereon the father, who was chief magistrate of the town, tried his son and sentenced him to death, and when the clan Lynch rose in a body to rescue the young man and divert such a disgrace from the family, it is said that Fitzstephen Lynch hanged the culprit with his own hands. A tragedy called 'The Warden of Galway' has been written on the subject, and was acted a few nights before my arrival."

"Is it true that you are going to Europe to live?"

"Certainly not," answered Mrs. Cumrox, indignantly. "The manner in which my husband accumulated his fortune is above suspicion."—Washington Star.

#### Uncertainty.

The statesman oft finds future grief in present triumph hid. He wants to speak, and later on He's sorry that he did. —Washington Star.
